

Strategic Asset Management

AFRY Strategic Asset Management (SAM) provides multi-industry expertise on targeted capital investment and asset management decision making.

The Challenge

Our clients often face similar challenges:

- What drives the funding needs?
- Where to best invest limited resources?
- How to argue funding needs to regulators, governments or shareholders?

SAM offers data-driven approaches for renewal and maintenance needs, identified through end-to-end traceable models, condition reports and a proprietary software solution.

Our Competencies

Strategic Portfolio Steering

- CAPEX/OPEX forecasting and simulation
- Forecasting, sourcing strategies and capabilities management
